

1550

Die-Cast Aluminum

Key Features:

- Rugged, diecast aluminum alloy (tough yet easy to machine), electronic instrument enclosure.
- Lap joint on lid provides some protection from dripping water and dust.
- Water-tight versions include a self-adhesive, EVA foam gasket for the lid provides IP66 protection against access of dust and water. Unpainted versions are vibra finished for a smooth surface with no sharp edges.
- Black versions are coated with tough - satin black polyester powder coat for a lasting finish, even after machining. Black screws are included to enhance assembled appearance.
- Four M3.5 x 0.6 x 12 mm long stainless steel, Philips head, machine screws secure lid - into factory tapped holes.
- Replacement screws are available in packs of 100 (see accessories below).
- Water-tight version are designed to meet IP 66 (with properly installed included gasket and lid screws torqued at 55 cN.m).
- Upgrade gasket kit to IP 67 also available (see below)
- No internal ribs for easy installation of connectors without interference or additional milling.
- Low side wall draft angle (2 degrees or less) for easy P.C. board mounting.

Improved gasket retainer on lid maintains a good seal.

Accessories

Upgrade or Replacement Gaskets

IP66 (EVA)
IP67 (Silicone)

Replacement Screws (100/pk)

1550MS100 (plated)
1550MS100BK (black)
1550WMS100 (plated, water-tight)

Water-tight versions are available
